CONSULTANT'S QUARTERLY MEETING REPORT OF PHARMACEUTICAL SERVICES

This quarterly report summary covers the month of **June 2025**. Medications were reviewed by the consultant pharmacist. As a result of the reviews 24 soon to expire drugs were reported to the Supervisor for follow through and permanent records.

Inspection of each nursing station was completed each month. Comments were made to the staff concerning the handling and storage of medicines and biologicals as required. A review of the charting (**18 narcotic audits**) and documentation procedures were completed with comments reported to the Supervisor each month as required.

The review of controlled drug handling procedures (if controlled drugs are present) shows that this area of accounting for medicine usage is in order. Please see monthly reports for specific details.
